“I wanted to send a quick note to say thank you – your library is presenting some really incredible, in-depth variety of topics and I’m sure this takes plenty of coordinating to make it possible. Thank you so much for this service!”

“In April, we debuted a panel discussion that was taped at the library. It was a complete success and we received great favorable feedback! One thing mentioned was the conversation-like setting which would not have been achieved without the help of the library recording studio. This recording has been added to our “panel discussion” library and hopefully will be used with future foster parents as a way to increase their parenting capacities. None of this would have been possible without your help. Thank you so much for everything you have done to support the foster care community!”
